

Power Chairs

Sterling Ruby 2

The Sterling Ruby 2 sets the standard for reliability and proven performance. By providing a power chair that breaks down into three manageable components (base, seat and battery), a user now has a more practical alternative when traveling by car, bus, train, etc.

Quickie Aspire F11 / M11

These power chairs are small, highly maneuverable and are both mid wheel drive. The Aspire M11 has independent all-wheel suspension to reduce curb impact and provide a smooth ride. Access to the battery box and charger is quick, easy and requires no tools.

Aspire F11

Aspire M11

Quickie Aspire Plus

The Quickie Aspire Plus can be fitted with 50° of tilt. Centre wheel drive and a small footprint provide the user with the ability to maneuver in tight spaces. The Aspire Plus also features an adjustable contoured seat and adjustable armrests and footrest.

Quickie Aspire HD14 / SHD14

The Aspire HD14 and SHD14 offers outstanding mid wheel drive maneuverability with the extra weight capacity of a heavy duty power chair. Combined with intelligent articulating frames, the chair can handle uneven surfaces with ease, power and comfort that is sure to please.

WHERE YOU WANT TO BE.

Portable Scooters

Our range of portable scooters are best suited to clients who want the independence of getting out and about and need to fit their scooter in their car. Portable scooters are easily transportable and break up into smaller components.

Mid Size Scooters

Mid size scooters offer more comfort and can travel longer distances. They are perfect for travelling around a shopping centre and loading into vehicles.

Large Size Scooters

Large size scooters are best for speed, comfort and travelling on rough terrain. They allow a higher travel distance and are ready for any journey.

Where you want to be.

Portable Scooters

Sterling Little Star

The Sterling Little Star scooter is the most portable in our range and will fit easily into almost every car for transporting. This lightweight and capable scooter is easy to use with a simple finger control throttle. Ideal for driving indoors and outdoors around town.

NEW

Sterling Little Gem 2

The Sterling Little Gem 2 scooter is very compact and highly portable as it disassembles very easily for transport. It has simple controls and the tiller is adjustable so you can find a relaxed driving position. The seat is height adjustable with a seat and back cushion that offers support so you can sit comfortable when in use.

Sterling Pearl

The Sterling Pearl scooter offers transportability, comfort and good performance. This mid-range scooter separates into easy to handle parts for travel. A height adjustable seat and adjustable tiller provide a relaxing ride and the flip-up armrests and swivel seat make getting on and off effortless.

Mid Size Scooters

NEW

Sterling Sapphire 2

The Sterling Sapphire 2 scooter is the perfect choice if you want to drive outdoors and have a little more performance but also want to transport it. The scooter is quick and easy to separate into parts when you need to travel. Designed to give more legroom than other models in its class, the Sapphire 2 also has larger batteries and LED lights so longer journeys are managed with ease.

Large Size Scooters

Sterling Emerald

The Sterling Emerald is a lively scooter with spring suspension. The narrow profile assures easier steering in enclosed conditions, yet never compromises stability over more uneven ground. Fitted with lights and indicators, the Emerald is ready for any journey. The comfortable captain style seat and tiller can be adjusted to suit your drive positioning, whilst stylish alloy wheels and sporty look gives you the edge in style and class.

Sterling Diamond

The Sterling Diamond is fitted with spring suspension, lights, indicators, an adjustable tiller and an adjustable seat. With a powerful top speed and impressive range the Diamond is great for those longer journeys. It also features stylish chrome bumpers and alloy wheels.
