

Seating Cushions

- Manufactured under the most stringent quality assurance procedures.
- An innovative concept in seating and wheelchair cushions that addresses a full range of pressure distribution and positioning needs. Cushions mould to individual body contours and are lightweight and easily handled.
- Pressure distribution qualities assessed by University of NSW and compared favourably with higher cost cushions.
- Offers a low cost, quality alternative that is specially tailored to suit people who are at medium and low risk.

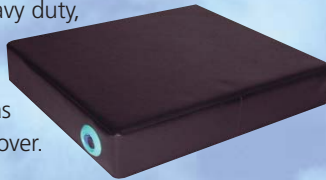

Premier Cushions –

comprise an inner cell or cells, upholstered in two-way stretch fabric. Multiple cells in at least 4 configurations provide customised support and positioning. Outer covers may be removed for laundering.

Budget Cushions –

comprise a top quality heavy duty, fire resistant foam, encased in reinforced Buckskin PVC. Available as single cell with no outer cover.

The ultimate in comfort and support!

Comfort, in the true meaning of the word, is about support and relief from pain.

Our support systems are self-inflatable and readily mould to the shape of your body using the specially designed comfort control valve.

DESIGNED & MANUFACTURED
IN AUSTRALIA

- All PostureLITE® products may be fully deflated and rolled, or folded, for easy storage and/or transportation.
- Quickly self-inflates without the need to 'blow-up' or use a pump.
- With PostureLITE® products there are no pressure points.
- Recommended & sold by physiotherapists & chiropractors.
- Made from quality fabrics.
- Durable & made to last.

PostureLITE pneumatic valve was awarded a silver medal at the Geneva Exhibition of Inventions & New Products
